Date	Version	Description
2.2.2022	1.0	First version for tax year 2022.

#### **1 INTRODUCTION**

This guidance explains the structure of the required inbound file and the check procedures that follow. For more information, see <u>General description for</u> <u>electronic filing of information returns (pdf)</u> (*tax.fi > About us > IT developers > Data format specifications > General description for electronic filing of information returns*).

# 2 DESCRIPTION OF THE INFORMATION FLOW AND SUBMITTAL OF FILES

The payors that pay interest to non-resident taxpayers must prepare an annual information return as a data file described in this guidance, giving a specification for every beneficiary. You must file your information return electronically if more than five (5) beneficiaries received payments from you.

However, the requirement to use e-filing does not concern natural persons and estates of deceased persons unless they operate a trade, business, or an agricultural farm or a forestry farm.

Read more about resident and nonresident tax liability in the Tax Administration's <u>Tax residency and nonresidency and residency for purposes</u> of the relevant tax treaty. For additional information and guidance on the tax treatment of non-residents, visit <u>International and cross-border circumstances</u> (*tax.fi* > *detailed guidance* > *international tax situations*).

To read more about annual information returns, go to <u>Forms</u> (*tax.fi* > *About us* > *Contact us* > *Forms* > *Annual information*).

To check the method of identification required by this information flow, the required role and the place in the flow where authorisations are checked, go to <u>Methods of sign-in</u>, roles and rights to represent organisations (*Ilmoitin.fi* > *Instructions and templates* > *Methods of sign-in*, roles).

#### **3 MAKING CORRECTIONS**

For year-specific instructions for making corrections, go to <u>Making corrections to</u> <u>annual information returns</u> (*tax.fi* > *About us* > *IT developers* > *Data format specifications* > *Annual information returns* & *Instructions* > *Making corrections to annual information returns*).

Please note the special requirements regarding this information flow:

We recommend that when making corrections, filers use the same information flow, and the same software, as they used for the original submittal.

# 4 PERIOD OF VALIDITY

The file formatting and checks according to this specification come into force on 29 March 2022 and continue to be in force until a new version of the specification is released.

For information about deadlines for filing, see the year-specific schedule on <u>IT developers</u> (*vero.fi* > *Verohallinto* > *Ohjelmistokehittäjät* > *Aikataulu vvvv*). The schedule is available in Finnish and Swedish.

# **10 CHECK YOUR FOREIGN TIN**

The online checking service TIN on Europa is free of charge; it offers a way to check the format of a foreign identity code (personal ID codes etc.). It does not give confirmation of any individual beneficiary's identity, or of the actual existence of the code entered in the country of issue.

The website is multi-lingual with 22 language options. It also provides additional information about the identifiers used in different countries.

To visit TIN on Europa, click <u>http://ec.europa.eu/taxation\_customs/taxation/tax\_cooperation/mutual\_assista</u> <u>nce/tin/index\_en.htm</u> or go directly to the request page at http://ec.europa.eu/taxation\_customs/tin/tinRequest.html
