1 INTRODUCTION

This guidance explains the structure of the required inbound file and the check procedures that follow. For more information, see [General description for electronic filing of information returns \(pdf\)](#) (*tax.fi > About us > IT developers > Data format specifications > General description for electronic filing of information returns*).

2 DESCRIPTION OF THE INFORMATION FLOW AND SUBMITTAL OF FILES

If your organisation is a Finnish fund management company, a Finnish affiliate of a foreign fund management or a foreign company that manages an investment fund established in Finland, you must file an information return to the Tax Administration. Its due date is soon after the end of every calendar year, and it should include specifications of the quantities and comparison values (*vertailuarvo*; *jämförelsevärde*) of the shares and units held by every taxpayer in every one of your funds or UCITS. The comparison value is 70 percent of fair market value (§ 4.3, Act governing the Valuation of Assets for the Purposes of Taxation). In this way, the comparison values are the same as the 'taxable values' reported during earlier years under the old rules.

Moreover, you must report the annual distributions of yields on the fund units and UCITS units, separately for each fund and UCITS.

The information-reporting requirement also concerns managers of Alternative Investment Funds, who manage a special common fund under the provisions of Act on Common Funds (Laki vaihtoehtorahastojen hoitajista 162/2014). If an Alternative Investment Fund has been set up in Finland but it has a foreign manager, the information-reporting requirement also concerns the foreign manager in the same way as it concerns a Finnish manager of an Alternative Investment Fund.

The reports must comply with this specification when the beneficiaries or shareholders are Finnish tax residents.

You must submit taxpayer-specific itemizations for all the payments and assets discussed in this specification. This means that itemizations of the paid aftermarket bonuses and quantities of shares in the funds are also required. In addition, the itemizations should include any payments of interest made from other countries, or intermediated from other countries, and information on any shares in Undertakings for Common Investment in Transferable Securities (UCITS) and foreign funds, including their distributions of profit or yield.

You must file your information return electronically if you had more than five (5) recipients of payments. However, the requirement to use e-filing does not concern physical persons and estates of deceased physical persons unless they operate a trade, business, or an agricultural farm/forestry farm.

If your reporting concerns investment fund shares and yield payments on such shares, you must file electronically. There is no paper-printed form available for the purpose.

For beneficiaries who are nonresidents, you must use the VSRKOERI information flow. In the case of nonresident beneficiaries, you do not have to report the quantities and comparison values of the shares or units in any mutual funds or UCITS funds.

If you have made payments to Individual Retirement Account holders (as provided by the legislation on long-term savings / Laki sidotusta pitkäaikaissäätämisestä 1183/2009), you do not have to report the yields. Similarly, no reporting of the invested or saved assets is necessary, on the condition that they are included in the scope of the savings agreement.

To read more about annual information returns, go to [Forms](#) (*tax.fi > About us > Contact us > Forms > Annual information*).

To check the method of identification required by this information flow, the required role and the place in the flow where authorisations are checked, go to

[Methods of sign-in, roles and rights to represent organisations](#) (*Ilmoitin.fi > Instructions and templates > Methods of sign-in, roles*).

3 MAKING CORRECTIONS

For year-specific instructions for making corrections, go to [Making corrections to annual information returns](#) (*tax.fi > About us > IT developers > Data format specifications > Making corrections to annual information returns*).

4 PERIOD OF VALIDITY

This specification sets out the requirements of file formatting that come into force 28 March 2023 and continue to be in force until a new version of this specification is released.

For information about deadlines for filing, see the year-specific schedule on [IT developers](#) (*vero.fi > Verohallinto > Ohjelmistokehittäjät > Aikataulu vvvv*). The schedule is available in Finnish and Swedish.
