## 1 INTRODUCTION

This guidance explains the structure of the required inbound file and the check procedures that follow. For more information, see [General description for electronic filing of information returns \(pdf\)](#) (*tax.fi > About us > IT developers > Data format specifications > General description for electronic filing of information returns*).

## 2 DESCRIPTION OF THE INFORMATION FLOW AND SUBMITTAL OF FILES

Find the guidance for completing Form 6U on the Tax Administration website [6U Tax return of business activities, Foreign corporate entity \(3053e\)](#) (*tax.fi > About us > Contact us > Forms > 6U Income tax return, Foreign corporate entity (3053e)*).

To check the method of identification required by this information flow, the role required and where in the flow the authorisation is checked, go to Ilmoitin.fi [Methods of sign-in, Roles, rights to represent organizations](#) (*ilmoitin.fi > Instructions and templates > Methods of sign-in, Roles, rights to represent organizations > Income Tax Return > Name*).

## 3 MAKING CORRECTIONS

If you have submitted an income tax return electronically and notice some mistakes in it later, to remedy the errors you must re-send Form 6U (the main form) plus all the enclosures that contain corrections. In other words, you must send us the main form again although it does not have anything to correct.

## 4 PERIOD OF VALIDITY

This specification sets out the requirements of file formatting that will become available on 6 February 2024 in Ilmoitin.fi in the live environment. They will then continue to be in force until a new version of this specification is released.

## 5 COMBINED INFORMATION FLOWS

See the other information flows that can be sent in the same computer file as you are sending Form 6U:

[Allowed combinations of forms for electronic income tax returns \(xlsx\)](#)
